## VERA WANG X CHOPIN VODKA

70CL | 40%

LUXURY POLISH VODKA MADE IN  
COLLABORATION WITH VERA WANG

A unique collaboration between the world's first luxury vodka and iconic fashion designer Vera Wang. This vodka is distilled from the rare Augusta potato, personally selected by Vera Wang herself for the unique flavour it imparts to the vodka. The result is a striking and sophisticated vodka in an equally striking matte bottle in the designer's signature black and white palette.

TERROIR DRIVEN FROM  
FIELD-TO-BOTTLE

Championing a hands-on approach and using locally sourced raw ingredients drives terroir, texture, and taste into Chopin's vodkas. Every drop is distilled four times on the distillery's 19th-century copper column still for optimum smoothness, before being rested for two weeks to further mellow and develop its flavour profile.

NOTES OF CUCUMBER,  
JASMINE, AND LIGHT VANILLA

The vodka opens with bright cucumber and soft jasmine with a hint of green cardamom, leading to a delicately sweet palate and a hint of vanilla, all wrapped up in a luxurious, silky texture. The finish is lingering and soft, ending with almonds and butterscotch.

WORLD'S FIRST SUPER  
PREMIUM VODKA

The brainchild of Tadeusz Dorda, Chopin Vodka was launched in 1993. After purchasing the distillery, which dates back to 1896, the Dorda family embarked on their mission of preserving Poland's centuries-old vodka making tradition, using one of the oldest stills left in Poland. Chopin remains family-owned to this day.
