

MICHTER'S US*1 AMERICAN UNBLENDED WHISKEY

70CL | 41.7%

UNIQUE AMERICAN WHISKEY AGED IN BOURBON CASKS

Michter's US*1 Unblended American Whiskey is an extremely smooth whiskey that is unlike anything else coming from Kentucky. The whiskey is aged in Bourbon-soaked barrels unlike Bourbon and Rye which, by law, must be aged in new oak casks. It doesn't contain grain neutral spirits, hence its "unblended" distinction.

NOTES OF BUTTERSCOTCH, RIPE FRUITS AND VANILLA

Michter's US*1 Unblended American Whiskey is full of sweet fruity notes such as butterscotch, ripe fruits, maple syrup, cardamom and a hint of crème brûlée.

AGED IN BOURBON-SOAKED OAK BARRELS

Michter's barrels are of the highest quality and after the maturation of their 10 YO Bourbon they are full of sweet rich flavours. Michter's uses these flavourful, Bourbon-soaked barrels to age Michter's US*1 Unblended American Whiskey.

A 'COST BE DAMNED' APPROACH

Many of the processes that are used to make Michter's cost more, from seasoning all their wood for an extended period as well as the barrel entry proof being the lowest in the industry. The focus is always on quality.

PERFECT FOR AFTER DINNER

Michter's US*1 Unblended American Whiskey is perfect as an after-dinner sipper, but is also ideal on the rocks with a twist of orange if you like an Old Fashioned.
